Mohit Barse

Nagpur, Maharashtra, India | +91 8485874289 | mohitbarse2230@gmail.com | LinkedIn | Leetcode | GitHub

Skills

Machine Learning & GenAI: Large Language Models, LangChain, Scikit-learn, Computer vision, NLPs, TensorFlow, PyTorch
Programming: Python, SQL
Databases & Vector Stores: MySQL, MongoDB, Pinecone , RDBMS
Cloud & MLOps: AWS, Docker
Developer Tools: Git, GitHub, Jupyter Notebook, VS Code

Projects

Explainable Financial Intelligence Platform | *Python, FastAPI, RAG, SHAP* GitHub

- Engineered a containerized FastAPI-based financial AI platform with 12+ microservices, enabling scalable analytics, explainability, and RAG-powered document retrieval.
- Fine-tuned a Hugging Face transformer using PyTorch, improving financial sentiment classification accuracy over the baseline while enhancing inference quality.

LLM Safety & Evaluation Framework | *Python, LLM Evaluation, AI Guardrails* GitHub

- Developed an automated LLM evaluation framework for hallucination, toxicity, and policy compliance using configurable AI guardrails, enabling consistent model benchmarking.
- Built a reusable validation pipeline supporting multiple LLMs, improving evaluation scalability and reducing manual testing effort.

Internship

Python Full Stack Developer Intern May 2026 – Present
QSpiders

- Engineered RESTful APIs using Python, improving backend maintainability through modular application design and structured data validation.
- Optimized debugging and testing workflows by collaborating with cross-functional teams to resolve implementation and data-quality issues efficiently

AI/ML Engineer Intern Dec 2025 – Jun 2026
Labmentix Edtech Private Limited

- Evaluated LLM responses against quality guidelines, identifying error patterns and improving response relevance and accuracy by 30%.
- Validated structured and unstructured datasets, performing root-cause analysis to improve annotation consistency and AI evaluation quality.

Data Analytics Intern Nov 2025 – Feb 2026
Codon's Technologies

- Processed and analyzed 10,000+ records using Python, ensuring high-quality, consistent datasets for downstream analytics.
- Conducted exploratory data analysis to identify anomalies, improving dataset quality and supporting data-driven business decisions.

Education

Tulsiramji Gaikwad Patil College of Engineering 2022 – 2026
Bachelor of Technology in Computer Science & Engineering (Data Science)
St. Paul Junior College, Nagpur 2020 – 2022
Higher Secondary Certificate (HSC) – Percentage: 71.33%

Achievement

LeetCode:
Solved 300+ DSA problems.

Certifications

Machine Learning Specialization — Stanford University & DeepLearning.AI (Coursera)
Deep Learning Specialization — DeepLearning.AI (Coursera)
AWS Cloud Technology Consultant Professional Certificate — Amazon Web Services (AWS) (Coursera)
